
INTERNATIONAL SERUM INDUSTRY ASSOCIATION CERTIFICATION

On March 11, 2013, The International Serum Industry Association (ISIA) awarded Seradigm its quality and traceability certification, which is the industry's highest distinction for manufacturing excellence. This certification represents:

- Superior product quality
- Manufacturing excellence
- Unmatched traceability

ISIA certification is awarded after successful completion of an independent audit to ensure adherence to the industry's strictest standards for quality, manufacturing and traceability. Only those serum suppliers who have proven compliance via audit can use the ISIA Seal of Quality.

Seradigm's entire supply chain is ISIA-certified per the ISIA Traceability Program.

INTERNATIONAL SERUM INDUSTRY ASSOCIATION MEMBERSHIP

The ISIA establishes, promotes and assures quality compliance with uncompromised standards of excellence and ethics in the serum industry. The Board of Directors, as well as general ISIA members, are represented by every major serum supplier globally.

Please visit the ISIA website to learn more about the Traceability Program and see which ISIA members are compliant with the ISIA standards at www.serumindustry.org.
